Your Leading Provider of Exceptional Organic & Inorganic Chemical Solutions Worldwide !

At Parad Chemicals Pvt. Ltd., we pride ourselves on being the forefront leaders in manufacturing and supplying premium organic and inorganic chemicals globally. With a commitment to excellence, innovation, and sustainability, we deliver top-quality chemical solutions that meet the diverse needs of industries ranging from pharmaceuticals to agriculture. Our relentless dedication to customer satisfaction and our cutting-edge production processes ensure that we consistently exceed expectations, driving progress and prosperity in every application.

Why select Us?

Research & Development

Driven by over 28 years of combined expertise, our R&D team is dedicated to innovation, quality enhancement, and cost optimization. We invest in advanced technologies to deliver globally competitive chemical solutions that meet evolving industry needs.

Quality Commitment

We are committed to delivering premium-quality chemicals through stringent quality control at every stage—from raw material sourcing to final production. Our adherence to international standards ensures products that consistently exceed customer expectations.

Communication & Infrastructure

With advanced communication systems and modern manufacturing facilities, we ensure efficient production, seamless coordination, and timely delivery. Our robust infrastructure supports bulk orders, innovation, and customized solutions tailored to client needs.

Client's Satisfaction

Client satisfaction drives everything we do. We deliver high-quality, customized chemical solutions that align with international standards, earning the trust and loyalty of clients worldwide through reliability, flexibility, and excellence.

We specialized in

Organic & Inorganic Chemicals and its Derivatives

BROMIDE

From purity to potency, our Bromine-based solutions redefine excellence.

CALCIUM

With precision and purity, our Calcium derivatives fuel progress.

COPPER

Crafted with expertise, our Copper solutions set industry standards.

IODINE

With Iodine innovation, we pave the way for breakthroughs.

LITHIUM

Harnessing the power of Lithium, we drive transformative change.

ZINC

Our Zinc products offer versatile solutions for diverse needs.

Products we offer

Lithium

PRODUCT NAME

Lithium Acetate Anhydrous
Lithium Acetate Di hydrate
Lithium Acetate Solution (22-26%)
Lithium Benzoate
Lithium Bromide Anhydrous
Lithium Bromide Solution (54-55%)
Lithium Carbonate
Lithium Chloride Anhydrous
Lithium Chloride Solution (40-41%)
Lithium Chromate Anhydrous
Lithium Chromate Solution (30%)
Lithium Citrate Tetra Hydrate
Lithium Fluoride
Lithium Fluoro Phosphate
Lithium Lactate
Lithium Meta Borate
Lithium Molybdate Anhydrous
Lithium Molybdate Solution (20%)
Lithium Nitrate Anhydrous
Lithium Nitrate Solution (20%)
Lithium Octanoate
Lithium Oxalate
Lithium Perchlorate
Lithium Phosphate
Lithium Sulfate
Lithium Tetra Borate
Lithium Metasilicate
Lithium Orthosilicate

Organic Bromide

PRODUCT NAME

Ethylene Di bromide
2 bromo butane
1,3 —di bromo propane
1,2 -di bromo propane
1,4 —di bromo butane
1,5 —di bromo pantane
1—bromo —3 chloro propane
Acetyl bromide
Bromo acetyl bromide
Propionyl bromide
N —pentyl bromide
Ethyl bromo acetate
Methyl bromo acetate
M -bromo phenol
P —bromo phenol
P —bromo toluene
Benzyl bromide
1,3 —di chloro propane
1,4 —di chloro butane
N —butyl chloride
Iso -butyl bromide
N —butyl bromide
Iso —propyl bromide
N —propyl bromide
Ethyl bromide
Phosphorous tri bromide
Allyl bromide
Iso —octyl bromide
N —hexyl bromide
N —octyl bromide
Iso -amyl bromide
Tert butyl bromide
N — amyl bromide
N —bromo succinimide

Bromide

PRODUCT NAME

Ammonium Bromide
Barium Bromide Anhydrous
Hydrobromic Acid 48%
Barium Bromide Dihydrate
Lead (II) Bromide Anhydrous
Bismuth (III) Bromide
Manganese (II) Bromide Tetrahydrate
Cadmium Bromide Anhydrous
Nickel (II) Bromide Anhydrous
Cadmium Bromide Tetrahydrate
Potassium Bromide
Cobalt (II) Bromide Anhydrous
Cobalt (II) Bromide Hexahydrate
Strontium Bromide Anhydrous
Strontium Bromide Hexahydrate
Calcium Bromide Anhydrous
Calcium Bromide Hydrate
Magnesium Bromide Hexahydrate
Antimony (III) Bromide
Zinc Bromide Anhydrous

Parad Corporation Pvt Ltd has its own R&D guided by a most experienced techno craft of having industrial experience of about 28 yrs. Our recognition and good status in the market is because of the importance that we lay upon the quality of our every product. The manufacturing unit is equipped with various modern machines that enable us in meeting highest quality standards as well as bulk requirements of our clients.

Being a client centric organization, we aim at offering our clients a well range of and to achieve maximum client satisfaction. Our skill to customize our range of chemicals as per the various requirements of our clients has strengthened our relations with the clients. The products manufactured in our plant conform to International Quality Standardization ensuring the trust of clients across the world.

Partner with Parad Corporation Pvt Ltd
Where Innovation Meets Integrity.

From research-driven solutions to uncompromising quality and client-focused service, we're committed to being the trusted name you rely on for all your chemical needs.
